OS 0293-72

17 August 1972

MEMORANDUM FOR: C/DDP/NARCOG

**SUBJECT : Interagency Training Program for International
Narcotics Control; General Orientation Block**

REFERENCE : Telephone Conversation of 15 August 1972

1. Attached is the schedule for the first portion of the course for Customs and BNDD officers. You will note that our portion of this orientation period is from 1200-1250 on Tuesday, 26 September. The time you had agreed to speak was at 1000, and if the new time is not convenient for you, it can certainly be changed. Although speakers names are in most cases not yet filled in, Customs, BNDD and Public Safety all plan to have senior officers with overseas experience talk about their responsibilities overseas. Customs and BNDD are planning to have former regional directors talk.

2. Since we are johnny-come-latelys in the narcotics business, there will probably be more obscurity about us and our role in the minds of the students than about any of the other formations talked about. Therefore you may feel it desirable to treat the background of our involvement at the Washington level and how information and coordination are handled here before getting into the general guidance to our overseas stations.

3. The schedule of our two plus days on operations is rounding into shape and will be coordinated with your office some time during the coming week. You may wish to talk this over before preparing your own remarks. We would welcome any suggestions for emphasis or taboos which you might wish to suggest.

Chief, Operations School/TR
